- Ultra Seamless 25 extra long length siding requires fewer panels, making installation easier and resulting in fewer seams for a more flawless finish.
- Ideal for homes that are larger or whose surface area is particularly long, strengthening overall rigidity of the panel.
- 3/4" panel butt height enhances shadow lines for a realistic wood look while

- The richness and natural beauty of a low-gloss cedar woodgrain surface.
- Color-through process hides scratches to maintain the panel's freshly painted look.
- Will not peel, flake or chip for lasting beauty and virtually maintenance-free performance.
- Best warranty in the business.

25' Means a Minimum of 50% Fewer Seams over Standard Siding Lengths

Standard 12' Panel

Ultra Seamless 25 panels cover larger homes with fewer laps and smaller homes with no laps for a beautiful, virtually seamless finish.

Install Fewer Panels With Ultra Seamless 25

Standard Siding Falls Short
Standard siding overlaps every 12 feet, which results in more seams.

The key to the Dura Technology™ Process is Royalside™ Compound, a proven blend of the world's finest raw materials. This blend, together with our exclusive Dura™ impact modifiers and premium ingredients, forms the base for a tougher, longer lasting siding.

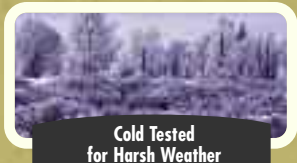

TESTED TO PERFORM

Additional Premium Features

- Heavy gauge (.046") improves structural rigidity for a straight, clean finish that won't warp, buckle or sag.
- Color-through process hides scratches, ensuring your panels keep their freshly painted appearance.
- Will not peel, flake or chip for long lasting beauty and virtually maintenance-free performance.
- The richness and natural beauty of a low-gloss cedar woodgrain surface.
- 3/4" panel butt height enhances shadow lines for a realistic wood look while strengthening overall rigidity of the panel.
- Windlok 240 system enables panels to withstand harsh weather conditions as well as hurricane force winds up to 240 mph.*
- Double rolled nail hem ensures panels are more secure, tighter-fitting and can stand up to the highest standards of structural performance.
- Available with 20' Long Length Corner Posts for a beautiful, clean finishing touch.

UV Tested for Color Retention
UV tests ensure your siding provides outstanding resistance to fading and discoloring. This advanced color retention is achieved by combining Luran® S ASA, made by BASF, with our innovative Royalside™ Compound and Dura Technology™ Process.

Cold Tested for Harsh Weather
Nationwide tests its siding against brittleness at temperatures as low as 14°F (-10°C), ensuring your siding will maintain its superior durability, rigidity and structural integrity under severe weather conditions.

Impact Tested for Strength
Extensive impact tests are conducted at 73°F (23°C) and 32°F (0°C) to ensure your siding exceeds ASTM standards and can withstand the elements, including hail, under any condition.

Double Lifetime Warranty Fully Transferable
Nationwide is so confident in the superior quality of this product that it is backed by the most powerful non-prorated warranty in the business.

We've Got You Covered

- Exclusive Lifetime, Non-Prorated Warranty
- Fully Transferable to Lifetime Non-Prorated Limited Warranty
- Covers Replacement Materials and Labor
- Lifetime Hail Protection Coverage
